## Communication from the Organizing Committee of 8WCCA

Dear Colleagues,

We have been advised by the Institute for Virology and Immunology in Switzerland that, given the developing situation with Coronavirus and the difficulty in making prognosis, the 8<sup>th</sup> World Congress on Conservation Agriculture (8WCCA) should be postponed by a period of one year.

After consultation with supporters and collaborators, the Organizing Committee has decided to accept the advice and is informing all concerned that the 8WCCA has been postponed by a period of one year. There will also still be a field day together with 8WCCA.

The Organizing Committee will continue to monitor the situation and keep you informed regarding different aspects of the World Congress through various channels including the 8WCCA website: [www.8wcca.org](http://www.8wcca.org)

We deeply regret the inconvenience caused by this postponement but sincerely hope that the high level of interest already shown by potential participants, collaborators and sponsors towards the World Congress will be maintained.

Yours sincerely,

Prof. Dr. Gottlieb Basch  
Chair of the 8WCCA International Organizing Committee  
President  
ECAF
